

Week commencing 17.06.19

Dear Parents and Carers,

This is your captain speaking. Welcome on board Manby Airlines. The cabin crew and I are looking forward to safely delivering your children to a week of fun at the following destinations:

Squirrels: South Korea

Hedgehogs: South Africa

Foxes: Turkey

Some of the activities that we'll take part in this week include:

Art: We will be creating art work inspired by our focus country as well as drawing and decorating the flag that represents this country.

Geography: Our prior knowledge of continents will support us in being able to use atlases and globes to accurately locate our focus countries as well as the UK. We will look at the similarities and differences between South Korea, South Africa, Turkey and the UK.

Computing: Using Kiddle we will research our focus country. We will then transfer any exciting facts that we discover into an interesting fact file.

Science: Using our small world animals, a collection of non-fiction books and the internet we will learn about the different types of animals that live in these countries. Some children might chose to create their own junk model animal.

D&T: We look forward to tasting food from the different countries that we are learning about.

Languages: We will learn some basic phrases such as greetings and colours and practise using these throughout the week.

At home you could:

- Use the safe search engine Kiddle to further research your country. Can you share some interesting facts with your class?
- Continue to practise using English currency. Perhaps you could create a small shop at home. Can you find the correct coins to pay for the different items?

We look forward to welcoming you all in on Friday afternoon to share some of the fun!

Dates to remember:

- Friday 21st June: Dress up day - see letter for further information.
- Friday 28th June: Year 1 Disco
- Friday 19th July: Grandparents Tea Party

Thank you!

The Year 1 Team
