

# International Week

We are looking forward to finding out about different countries and their traditions. We will be focusing on the UK and where we are in relation to the rest of the world. We are very lucky to have staff members from Chile, New Zealand and South Africa who will be sharing their knowledge with the children during the week. We will be using maps, globes and the internet to research different countries.

Please could your child bring a photograph of a place that they have visited and be ready to share their experience with the class. If your family have international links we would welcome any photographs or artefacts to share with the children during the week. Please make sure anything sent in is clearly named so that it can be returned. Thank you.

At home you could:- Look at maps and globes with your child and discuss places that you have visited.

Thank you  
The Reception Team
