HEADTEACHER: MISS M. MORRIS

September 2021

Dear Parents/Carers,

We are writing to you, to ask for your help in extending one of our key learning areas in Reception. In both our inside and outside learning areas, the children enjoy playing with our loose parts resources. Loose parts offer infinite play possibilities and create links to each part of our Reception curriculum. For children, who are naturally curious, loose parts offer multiple rather than single outcomes in their play. This helps to develop their imagination, understanding of maths, opportunities for speech and language development and many, many more learning opportunities.

We are always looking to add to the resources that we have available to our children and ask that you help us where you can. Many of these resources can be collected without cost. We kindly ask that, if possible, you work with your child to collect as many of the following resources as possible.

With best wishes,

The Reception Team
